SEEDS OF CARING

Nourishing NATURE

Join us in nourishing nature as we make spaces that foster a caring environment for all. Contribute to the well-being of our local wildlife and celebrate the beauty of our natural surroundings. Service project ideas include making bird houses or bird feeders, planting trees or flowers, installing a bird bath, or any other way to care for nature.

Photograph your contributions and members who participated. Submit photos and details at spjst.org/gives and share it on social media using [#spjstgives](https://twitter.com/spjstgives).
